

# Hospital Recovery Insurance

*with Observation Coverage*

## *Individual*

## Affordable insurance to assist in your recovery.

Your medical plan provides benefits to help with medical costs resulting from an inpatient hospitalization or treatment in an observation unit. Once you leave the hospital, you shouldn't have to worry about financial setbacks that you didn't expect during your recovery. Things like lost wages plus the cost for help with transportation, meals, child care, or even housekeeping can all add up. Hospital Recovery Insurance provides cash benefits regardless of any other insurance you have.

By pairing it with your medical plan, you can extend your protection to help with those unexpected costs so you can focus on your recovery.

- In 2016, the average length of a hospital stay was 4.6 days<sup>1</sup>
- In 2016, the average cost of a hospital stay in the U.S. for adults 45-64 was \$14,500<sup>1</sup>
- Your risk of being hospitalized almost doubles when you reach age 65<sup>2</sup>
- In 2018, 85% of covered workers faced a health insurance deductible, with average single deductibles more than doubling to \$1,573 since 2008.<sup>3</sup>

The average length of a hospital stay has declined since 2000.<sup>4</sup>

A shorter hospital stay may mean additional out-of-pocket expenses before a patient reaches full recovery.

# How might you and your family use Hospital Recovery benefits? You decide.

Hospital Recovery benefits are paid directly to you following an inpatient hospital stay discharge or treatment in an observation unit. How you use your benefits is up to you! Examples include:

- Home care assistance
- Rehabilitative services
- Medical deductibles, co-pays or co-insurance
- Child care
- Housekeeping help
- Lost wages while away from work
- Transportation to/from appointments
- Yard work
- Anything else!

# A Range of Benefits is Available.

**Eligible Issue Ages:** 18 through 85 (In NC: 18-64). This policy is guaranteed renewable for life.

- For applicants ages 64.5 through 65.5 - no medical questions or build chart (In NC: age 64.5 until you turn 65; In WA: not applicable)
- All other ages - simplified underwriting

## Choose a Daily Benefit Amount

(any amount between \$100 and \$900, in \$10 increments)

The **Daily Benefit Amount** represents the amount payable to you for each day you or a covered family member is confined to a hospital as an inpatient – up to 35 days per calendar year, which includes up to 4 days for treatment in an observation unit. The Daily Benefit Amount is per covered family member.

The **Annual Benefit Bank\*** is the total dollar amount available to you and your covered family members per calendar year, and is equal to your Daily Benefit Amount multiplied by 35. The Annual Benefit Bank Amount is per covered family member. On Jan. 1 of each year, the Annual Benefit Bank will replenish to its full amount.

\* In GA: Maximum Annual Benefit Amount

For example, a \$500 Daily Benefit Amount would give you and each covered family member Annual Benefit Banks of \$17,500.

\$500	X	35 Days	=	\$17,500
Daily Benefit Amount		Maximum Days		Annual Benefit Bank

# How is your Hospital Recovery Benefit Calculated?

LifeSecure will pay a benefit directly to you based on the number of days spent in the hospital.

Calculating your benefit payout is easy! Just multiply your Daily Benefit Amount by the number of days spent in the hospital.

## Benefit Payout Examples

### Example 1 – INPATIENT HOSPITALIZATION

Cindy selects a Daily Benefit Amount of \$500, which gives her an Annual Benefit Bank of \$17,500. She is later hospitalized for four days after back surgery. Upon discharge, Cindy's benefit payout will be \$2,000.

### Example 2 – TREATMENT IN AN OBSERVATION UNIT

Scott also selects a Daily Benefit Amount of \$500. While hiking, he experiences a severe allergic reaction to a plant and is treated in the observation unit of a nearby hospital for two days. Scott's benefit payout will be \$1,000.

<div style="border: 1px solid blue; padding: 5px; width: 150px; margin: 0 auto;"><b>\$500</b></div>	<b>X</b>	<div style="border: 1px solid blue; padding: 5px; width: 150px; margin: 0 auto;"><b>2 Days</b></div>	<b>=</b>	<div style="border: 1px solid blue; padding: 5px; width: 150px; margin: 0 auto;"><b>\$1,000</b></div>
Daily Benefit Amount		# of Days in Observation Unit		Scott's Hospital Recovery Benefit Payout

What is Scott's remaining Benefit Bank balance?

<div style="border: 1px solid blue; padding: 5px; width: 150px; margin: 0 auto;"><b>\$17,500</b></div>	<b>–</b>	<div style="border: 1px solid blue; padding: 5px; width: 150px; margin: 0 auto;"><b>\$1,000</b></div>	<b>=</b>	<div style="border: 1px solid blue; padding: 5px; width: 150px; margin: 0 auto;"><b>\$16,500</b></div>
Annual Benefit Bank		Benefit Payout		Remaining Benefit Bank

Assuming both Cindy's and Scott's Hospital Recovery Insurance policies include coverage for their spouse and/or children, each covered family member would have their own Benefit Bank. Each person's Annual Benefit Bank will replenish to its full amount of \$17,500 on Jan. 1 of each year.
